

EMI RANGE

Emi is an outdoor seating option with clean modern lines and carefully considered details. The frame is made entirely in technopolymer while the perforations make Emi ideal for outdoor spaces, both at home and for contract use.

The special shape of the legs, created in a single block, means it stacks perfectly, leaving no gaps, and is exceptionally stable.

Made in Italy by SCAB Design. Designer: Arter & Citton.

No assembly required.

PROTECTION/CLEANING INSTRUCTIONS

To clean, use warm mild soapy water and soft clean cloth. Do not use harsh scouring powders or harsh abrasive cloths and brushes, as these will scratch and damage the surface. **AVOID CHLORINE** or **BLEACH** products as this will discolour the furniture. If you have more resistant marks, these can be treated with common household cleaners such as Spray and Wipe.

Protection: Avoid placing polypropylene furniture in direct line of heat sources such as heaters, fireplaces, and other sources of direct heat. When furniture is not in use, we recommend where possible storing in an undercover spot or covering away from the weather, this will help prolong the life.
